OBJECTIVE

Focused Python developer and process optimizer with a strong background in accounts payable automation, technical troubleshooting, and data analysis. Seeking a role where I can leverage my coding expertise and operational insights to streamline workflows, ensure compliance, and deliver scalable solutions.

EXPERIENCE

Safco Dental Supply – Buffalo Grove, IL
Accounts Payable Specialist (Sep 2023 – Present)

- Automated full-cycle AP processes using Python, handling all cost of goods sold across multiple warehouses.
- Transitioned from paper-based AP to a fully digital system, reducing manual input and error rates.
- Developed custom Python scripts for financial reporting, cutting manual labor by 30%.
- Collaborated with IT and operations to integrate automation tools, achieving a 60% reduction in processing time.
- Continuously identify opportunities to further enhance operations with Python-driven solutions.
- Some experience with control language programming via IBM AS400.

Freelance Audio Engineer – Chicago, IL
Freelance Audio Engineer (Dec 2017 – Present)

- Provide recording, mixing, mastering, and distribution services for various clients.
- Manage client relations and ensure quality control of audio deliverables.

Clearon Corp – Schaumburg, IL
AP/AR Specialist (Jan 2022 – Sep 2023)

- Processed invoices and payments using SAP and various banking platforms.
- Served as a go-to troubleshooter for SAP errors and issues.
- Optimized and documented AP/AR processes to improve efficiency.
- Led a team of three contractors; trained overseas accounting teams on local AP/AR workflows.

Infinity Healthcare Management – Hillside, IL
Accounts Payable Specialist (Apr 2019 – Jan 2022)

- Handled invoice posting, payment verifications, and financial reconciliations.
- Maintained vendor relations to ensure timely payments and resolution of discrepancies.
- Trained four new team members and provided technical support for office hardware and software.
- Assisted with month-end and year-end close, including journal entries and invoice reconciliations.

SKILLS & EXPERTISE

- **Python Programming & Automation**
- Accounts Payable/Accounts Receivable
- SAP & Advanced Excel Functions
- Process Optimization & Troubleshooting
- Communication & Vendor Relations
- Time Management & Documentation Review

EDUCATION

University of Illinois Springfield – Springfield, IL
